Ultraviolet (UV) Air Filtration solutions &

AC duct disinfection Systems

First Tech Technical Services LLC, proud to be associated with USA, France and other European brands for Ultraviolet (UV) - Air Filtration solutions & AC Duct Disinfection Systems for air purification & treatment to control bacteria & viruses through AC ducts such as HVAC and FCU.

First Tech provide complete solution for Supply of materials, wiring and installations for UV Air & AC duct disinfection systems, we also undertake annual maintenance contracts for air tests for installed systems.

The major benefit of HVAC disinfection system is reduction of airborne bacteria and viruses that accumulate in one area from being spread to other areas inside your office, school, medical centers or warehouse etc.

- UV provides high operating efficiency by way of its consistent prevention of bio-growth on HVAC components
- UV reduces or completely eliminates the need for other types of system / cooling coil cleaning
- UV can eliminate the HVAC system as a significant source of odors and unhealthful air contamination.
- UV is cost effective, eco-friendly, automatic and low maintenance.
